The American Cough Candy.

WE know of nothing in the annals of medicine which has achieved, within the same space of time, so just and general a reputation, as the above invaluable *Cough Remedy*. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us. We are assured that where ever used it is superceding all other remedies of the kind. Grevious to relate, the Nightengale had she tested its virtue, probably never would have taken to herself a Goldschmidt. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.

Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Stormy.

The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. P. W. BADGLEY,

HAS removed to his New Stores, four doors north from his old stand, at **Nos. 103 & 105, E. Water-st.,** where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. His experience and facilities enable him to buy from the same parties the Jobbers of New York buy from. He will hold himself in readiness to duplicate any retail merchant's purchase in New York—adding necessary expenses.

The subscriber would tender his thanks for the liberal manner he has been patronized for the last six years, and hopes to merit a continuation by strict attention to the interests and wants of his customers. All orders entrusted to him to fill will meet with the same attention as if present.

For references inquire of his old customers, who are numerous and easy to be found.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state, for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

JOHN DWIGHT & CO'S

SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

BLEAK HOUSE.

BY

BY CHARLES DICKENS.

CHAPTER I. IN CHANCERY.

Michaelmas Term lately over and the Lord Chancellor sitting in Lincoln's Inn Hall. Implacable November weather. As much mud in the streets, as if the water had but newly retired from the face of the earth, and it would not be wonderful to meet a Megalosaurus, forty feet long or so, waddling like an elephantine lizard up Holborn-hill. Smoke lowering down from chimney-pots, making a soft black drizzle, with flakes of soot in it as big as full-grown snow-flakes—gone into mourning, one might imagine, for the death of the sun. Dogs undistinguishable in mire. Horses, scarcely better; splashed to their very blinkers. Foot passengers jostling one another's umbrellas, in a general infection of ill-temper, and losing their foot-hold at street-corners, where tens of thousands of other foot passengers had been slipping and sliding since the day broke (if the day ever broke,) adding new deposits to the crust upon crust of mud, sticking at those points tenaciously to the pavement, and accumulating at compound interest.

Fog everywhere. Fog up the river, where it flows among green aits and meadows; fog down the river, where it rolls defiled among the tiers of shipping, and the water-side pollutions of a great (and dirty) city. Fog on the Essex marshes, fog on the Kentish heights. Fog creeping into the cabooses of the collier-brigs; fog lying out on the yards, and hovering in the rigging of great ships; fog drooping on the gunwales of barges and small boats. Fog in the eyes and throats of ancient Greenwich pensioners, wheezing by the firesides of their wards; fog in the stem and bowl of the afternoon pipe of the wrathful skipper, down in his close cabin; fog cruelly pinching the fingers and toes of his shivering little 'prentice boy on deck. Chance people on the bridges peeping over the parapets into a nether sky of fog, with fog all round them, as if they were up in a balloon, and hanging in the misty clouds.

Gas looming through the fog in divers places in the streets, much as the sun may, from the spongy fields, be seen to loom by husbandman and plowboy. Most of the shops lighted two hours before their time—as the gas seems to know, for it has a haggard and unwilling look.

The raw afternoon is rawest, and the dense fog is densest, and the muddy streets are muddiest, near that leaden-headed old obstruction, appropriate ornament for the threshold of a leaden-headed old corporation: Temple Bar. And hard by Temple Bar, in Lincoln's Inn Hall, at the very heart of the fog, sits the Lord High Chancellor in his High Court of Chancery.

Never can there come fog too thick, never can there come mud and mire too deep, to assort with the groping and floundering condition which this High Court of Chancery, most pestilent of hoary sinners, holds this day, in the sight of Heaven and earth.

On such an afternoon, if ever the Lord High Chancellor ought to be sitting here—as here he is—with a foggy glory round his head, softly fenced in with crimson cloth and curtains, addressed by a large advocate with great whiskers, a little voice, and an interminable brief, and outwardly directing his contemplation to the lantern in the roof, where he can see nothing but fog. On such an afternoon some score of members of the High Court of chancery bar ought to be—as here they are—mistily engaged in one of the ten thousand stages of an endless cause, tripping one another up on slippery precedents, groping knee-deep in technicalities, running their goat-hair and horse-hair warded heads against walls of words, and making a pretence of equity with serious faces as players might. On such an afternoon, the various solicitors in the cause, some two or three of whom have inherited it from their fathers, who made a fortune by it, ought to be—as are they not?—ranged in a line, in a long matted well (but you might look in vain for Truth at the bottom of it,) between the registrar's red table and the silk gowns, with bills, cross-bills, answers, rejoinders, injunctions, affidavits, issues, references to masters, masters reports, mountains of costly nonsense, piled before them.

Well may the court be dim, with wasting candles here and there; well may the fog hang heavy in it, as if it would never get out; well may the stained glass windows lose their color, and admit no light of day into the place; well may the uninitiated from the streets, who peep in through the glass panes in the door, be deterred from entrance by its owlish aspect, and by the drawl languidly echoing to the roof from the padded dais where the Lord High Chancellor looks into the lantern that has no light in it, and where the attendant wigs are all stuck in a fog-bank! This is the Court of Chancery; which has its decaying houses and its blighted lands in every shire; which has its worn-out lunatic in every madhouse, and its dead in every church-yard; which has its ruined suitor, with his slipshod heels and threadbare dress, borrowing and begging through the round of every man's acquaintance; which gives to monied might the means abundantly of wearying out the right; which so exhausts finances, patience, courage, hope; so overthrows the brain and breaks the heart; that there is not an honorable man among its practitioners who would not give—who does not often give—the warning, "Suffer any wrong that can be done you, rather than come here!"

Who happen to be in the Lord Chancellor's court this murky afternoon, besides the Lord Chancellor, the counsel in the cause, two or three counsel who are never in any cause, and the well of solicitors before mentioned? There is the registrar below the Judge, in wig and gown; and there are two or three maces, or petty-bags, or privy-purses, or whatever they may be, in legal court suits.—These are all yawning; for no crumb of amusement ever falls from Jarndyce and Jarndyce, (the cause in hand,) which was squeezed dry, years upon years ago. The short-hand writers, the reporters of the newspapers, invariably decamp with the rest of the regulars when Jarndyce and Jarndyce comes on. Their places are blank. Standing on a seat at the side of the hall the better to peer into the curtained sanctuary, is a little mad old woman in a squeezed bonnet, who is always in court, from its sitting to its rising, and always expecting some incomprehensible judgment to be given in her favor. Some say she really is, or was, a party to a suit, but no one knows for certain, because no one cares. She carries some small litter in a reticule which she calls her documents; principally consisting of paper matches and dry lavender. A sallow prisoner has come up, in custody, for the half-dozenth time, to make a personal application "to purge himself of his contempt," which, being a solitary surviving executor who has fallen into a state of conglomeration about accounts of which it is not pretended that he had ever any knowledge, he is not at all likely ever to do. In the meantime, his prospects in life are ended. Another ruined suitor, who periodically appears from Shropshire and breaks out into efforts to address the Chancellor at the close of the day's business, and who can by no means be made to understand that the Chancellor is legally ignorant of his existence after making it desolate for a quarter of a century, plants himself in a good place and keeps an eye on the Judge, ready to call out "My lord!" in a voice of sonorous complaint, on the instant of his rising. A few lawyers' clerks and others who know this suitor by sight, linger, on the chance of his furnishing some fun, and enlivening the dismal weather a little.

Jarndyce and Jarndyce drones on. This scarecrow of a suit has, in course of time, become so complicated, that no man alive knows what it means. The parties to it understand it least; but it has been observed that no two Chancery lawyers can talk about it for five minutes, without coming to a total disagreement as to all the premises. Innumerable children have been born into the cause; innumerable young people have married into it; innumerable old people have died out of it. Scores of persons have deliriously found themselves made parties in Jarndyce and Jarndyce, without knowing how or why; whole families have inherited legendary hatreds with the suit. The little plaintiff or defendant, who was promised a new rocking-horse when Jarndyce and Jarndyce should be settled, has grown up, possessed himself of a real horse, and trotted away into the other world. Fair wards of court have faded into mothers and grandmothers; a long procession of Chancellors has come in and gone out; the legion of bills in the suit have been transformed into mere bills of mortality; there are not three Jarndyces left upon the earth perhaps, since old Tom Jarndyce in despair blew his brains out at a coffee-house in Chancery-lane; but Jarndyce and Jarndyce still drags its dreary length before the Court, perennially hopeless.

Jarndyce & Jarndyce has passed into a joke. That is the only good that has ever come of it. It has been death to many, but it is a joke in the profession. Every master in Chancery has had a reference out of it. Every Chancellor was "in it," for somebody or other, when he was counsel at the bar. Good things have been said about it by blue-nosed, bulbous-shoed old benchers, in select port wine committee after dinner in hall. Articled clerks have been in the habit of fleshing their legal wit upon it. The last Lord Chancellor handled it neatly, when correcting Mr. Blowers, the eminent silk gown, who said that such a thing might happen when the sky rained potatoes, he observed, "or when we get through Jarndyce and Jarndyce, Mr. Blowers;"—a pleasantry that particularly tickled the maces, bags, and purses.

How many people out of the suit, Jarndyce and Jarndyce has stretched forth its unwholesome hand to spoil and corrupt, would be a very wide question. From the master, upon whose impaling files reams of dusty warrants in Jarndyce and Jarndyce have grimly writhed into many shapes; down to the copying clerk in the Six Clerks' Office, who has copied his tens of thousands of Chancery-folio-pages under that eternal heading; no man's nature has been made the better by it. In trickery, evasion, procrastination, spoliation, botheration, under false pretences of all sorts, there are influences that can never come to good. The very solicitors' boys, who have kept the wretched suitors at bay, by protesting time out of mind that Mr. Chizzle, Mizzle, or otherwise, was particularly engaged and had appointments until dinner, may have got an extra moral twist & shuffle into themselves out of Jarndyce & Jarndyce. The receiver in the cause has acquired a goodly sum of money by it, but has acquired too a distrust of his own mother, and a contempt for his own kind. Chizzle, Mizzle, and otherwise, have lapsed into a habit of vaguely promising themselves that they will look into that outstanding little matter, and see what can be done for Drizzle—who was not well used—when Jarndyce and Jarndyce shall be got out of the office. Shirking and sharking, in all their many varieties, have been sown broadcast by the ill-fated cause; and even those who have contemplated its history from the outermost circle of such evil, have been insensibly tempted into a loose way of letting bad things alone to take their own bad course, and a loose belief that if the world go wrong, it was, in some off-hand manner, never meant to go right.

Thus in the midst of the mud and at the heart of the fog, sits the Lord High Chancellor in his High Court of Chancery.

"Mr. Tangle," says the Lord High Chancellor, latterly something restless under the eloquence of that learned gentleman.

"Mlud," says Mr. Tangle. Mr. Tangle knows more of Jarndyce and Jarndyce than any body. He is famous for it—supposed never to have read any thing else since he left school.

"Have you nearly concluded your argument?"

"Mlud, no—variety of points—feel it my duty to submit—ludship," is the reply that slides out of Mr. Tangle.

"Several members of the bar are still to be heard, I believe?" says the Chancellor, with a slight smile.

Eighteen of Mr. Tangle's learned friends, each armed with a little summary of eighteen hundred sheets, bob up like eighteen hundred hammers in a pianoforte, make eighteen bows, and drop into their eighteen places of obscurity.

"We will proceed with the hearing on Wednesday fortnight," says the Chancellor. For the question at issue is only a question of costs, a mere bud on the forest tree of the parent suit, and really will come to a settlement one of these days.

The Chancellor rises; the bar rises; the prisoner is brought forward in a hurry; the man from Shropshire cries, "My Lord!" Maces, bags, and purses, indignantly proclaim silence, and all frown at the man from Shropshire.

"In reference," proceeds the Chancellor, still on Jarndyce and Jarndyce, "to the young girl—"

"Begludship's pardon—boy," says Mr. Tangle, prematurely.

"In reference," proceeds the Chancellor, with extra distinctness, "to the young girl and boy, the two young people"—

(Mr. Tangle crushed.)

"Whom I directed to be in attendance to-day, and who are now in my private room, I will see them and satisfy myself as to the expediency of making the order for their residing with their uncle."

Mr. Tangle on his legs again.

"Begludship's pardon—dead."

"With their," Chancellor looking through his double eye-glass at the papers on his desk, "grandfather."

"Begludship's pardon—victim of rash action—brains."

Suddenly a very little counsel, with a terrific bass voice, arises, fully inflated, in the back settlements of the fog, and says, "Will your lordship allow me? I appear for him. He is a cousin, several times removed. I am not at the moment prepared to inform the Court in what exact remove he is a cousin; but he is a cousin."

Leaving this address (delivered like a sepulchral message) ringing in the rafters of the roof, the very little counsel drops, and the fog knows him no more. Every body looks for him. Nobody can see him.

"I will speak with both the young people," says the Chancellor anew, "and satisfy myself on the subject of their residing with their cousin. I will mention the matter, to-morrow morning when I take my seat."

The Chancellor is about to bow to the bar, when the prisoner is presented. Nothing can possibly come of the prisoner's conglomeration, but his being sent back to prison; which is soon done.—The man from Shropshire ventures another remonstrative "My Lord!" but the Chancellor, being aware of him, has dexterously vanished.—Every body else quickly vanishes too. A battery of blue bags is loaded with heavy charges of papers, and carried off by clerks; the little mad old woman marches off with her documents; the empty court is locked up. If all the injustice it has committed, and all the misery it has caused, could only be locked up with it, and the whole burned away in a great funeral pyre—why, so much the better for other parties than the parties in Jarndyce and Jarndyce!

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, March 25.

The morning dawned bright and clear, the air was balmy as in summer, and the birds were singing their merry roundelays in the fine trees of the Capital park. All this is very beautiful to sight and sense, but from the fact that the mail had not arrived at 11 A. M. it is probable that some travellers do not appreciate the breaking up of the roads consequent upon the opening of spring.

The whig members of the Legislature met last night in the Library to nominate three State Prison Commissioners, so as to be in readiness in case the Senate should pass the resolution to go into joint Convention this morning at 11 o'clock.—Gen. Wm. R. Blake of Dodge Co., Henry Brown of Waupun, and Jonathan Dougherty of Fond du Lac Co., were the successful candidates in caucus. Inasmuch as four or five of the democratic Senators were absent, there was little probability of the Senate consenting to go into Convention, but it was thought best to be ready. The gentlemen nominated are every way capable, and are endorsed by those who know them best as being just the men to fill the responsible offices to which it is hoped that they will be elected, in case the offices are filled by the Legislature.

The Committee on State Affairs reported in favor of reprinting a limited number of the session laws which were said to be missing from the Library.

Leave of absence was granted to several members who are also members of county boards, and it is pretty well understood that the entire Washington Co. delegation is to take leave of absence, in order to go home and fight out the county seat question. Of course the *per diem* goes on constructively, constructive-mileage-fashion.

The House in Committee of the Whole, made some progress on the general file of bills, and then took up the series of liquor bills. So many of them, of various features, have been introduced, that the members are entirely at sea, without rudder or compass. What sort of a port they will make, and in what condition, it needs a prophet's ken to tell. I hazard the prediction, however, that the question will be submitted to the people in the fall.

An important bill passed the House, authorizing circuit courts, on proof of payment of mortgage to compel a satisfaction from the mortgagee. It was urged in its favor, that, in numerous cases, non-resident mortgagees have declined or delayed in a vexatious manner, to execute releases, and do not give their attorneys power to execute them.

The House adjourned shortly after 12 o'clock for the day, on the plea that, some of the committees were overburdened with work, and could not get along without more time. But the *real* object of many of those who voted for the adjournment, was to prevent a reconsideration of the railroad bond question. It is of no use—the project *will be carried*. W. H. W.

MADISON, March 26, 1852.

The bright promise of yesterday morning was hardly realized by the succeeding hours of the day, frequent showers occurring in the afternoon, and a drenching rain, accompanied by thunder and lightning, coming on towards evening. It has had the effect of settling the roads and improving the navigation of the streets materially. The mail, however, did not get in until noon.

In my letter of the 22nd inst., in speaking of the amount of appropriation asked by the Register and Receiver of U. S. lands for locating school lands, I am made to say that that amount is about $300. I wrote $3000, and such are the figures.

The Senate has had a warm time for the past two days in discussing bills introduced to pay Messrs. Henning and Murdock for 39 days attendance here upon the Committee of Investigation. It was urged against the passage of the bills, that there was no reason why the above persons should have been called here, while Mr. Alban, who introduced the bills, insisted that the books could not have been brought hither without the officers. After a long and sharp debate, the bills were ordered engrossed, after being reduced very much, Mr. Alban alone of the whigs and of the Committee of investigation, voting for them. I have an idea as to what will be their fate in the House.

Mr. Cate, from the select committee to which was referred the communication of the Governor, relative to the Swamp and Overflowed lands granted to the State, reported this morning a bill providing for the appointment by the Governor, of Commissioners to attend to all matters relative to reclaiming and bringing into market these lands. The report estimates that there are in the State about 5,000,000 acres of these lands, and that the amount which would accrue to the State after the payment of expenses for reclaiming and preparing them for market, would be large.

Mr. Richardson submitted a report adverse to one presented by a majority of a committee some time since on the subject of the revision of the School laws, suggested by the State Superintendent, Dr. Ladd. Mr. R. takes the ground, and sustains it ably, that no revision is needed, and that a brief circular of instructions from the Superintendent to the district officers, will be amply sufficient for the purposes indicated by that officer as reasons for the revision of the laws.

Mr. Barlow presented a capital minority report from the select committee on the liquor question. It followed up the report submitted a few days since by Mr. Ricker, for himself and Mr. Wiel, as the majority of the committee, and was very well received by the House. The quotation from Homer, presented in support of the "ardent" by Mr. Ricker, was fairly offset by another of an entirely different tendency, and Shakspeare was made to bear his testimony to the ill effects of "hot and rebellious liquors to the blood." The two reports are to be printed together.

Some dozen bills were passed this morning, and two, which have caused a good deal of debate, were killed. One of them was a senate bill, and provided for making county orders draw interest. It was indefinitely postponed. The other was the bill providing for taking the settlement of county seat questions from the legislature, and giving it to the boards of supervisors. Some of the members, in whose counties quarrels are now existing, opposed the bill, expressing a fear lest the quarrels may be made to rage more fiercely than before. Besides this, they doubtless thought that the quarrel could be much more cheaply carried on by the counties, by having the Legislatures fight it out, and the State foot the bill. They didn't say so, to be sure. Some of the members also had constitutional objections to the bill, and it was also indefinitely postponed.

The friends of the Bank Bill and those who were determined to do something, rallied in the afternoon and settled the interest question at 10 per cent. till 1858 and 7 per cent. thereafter. They also cut out the section 10 which was substituted in Committee, and inserted a new one, providing that the capital stock of banks be taxed 1½ per cent., and that the real estate be taxed where it is located: and struck out section 17 entirely.

Mr. Lewis then moved to amend the section relative to stocks receivable as securities, so as to conform them to certain states mentioned, viz: Ohio, New York, and some of the New England States. Without taking the question, the House adj'd.

W. H. W.

Important from Madison.

Our paper, this morning, contains a variety of important and interesting news from Madison. It will be seen, from our Telegraphic despatches, that the Bank Bill was *ordered engrossed*, on Saturday afternoon, by a vote of 31 to 19. It will probably come up on its final passage to-day. The Senate we think, will adopt the bill substantially as passed by the House. It now includes the proposition to take Rail Road bonds, under certain restrictions, as part security for the Bank issues, the friends of that measure, after a most arduous struggle, having finally carried it through by *one* majority.

The Special Message of the Governor, covering a communication from Mr. MITCHELL to the Attorney General, and a stipulation entered into between these parties, in relation to the proceedings against the Wisconsin Marine and Fire Insurance Company, will attract attention. We think Mr. MITCHELL's offer fair and straight-forward, and the stipulation made with the Attorney General, reasonable and proper, and we do not believe that the Legislature will *feel* called upon to interfere in the premises.

Waking up the Wrong Passenger.

Most of our readers have heard of the characteristic toast of the Pennsylvania Coachman, shortly after the famous intellectual passage-at-arms in the U. S. Senate, between DANIEL WEBSTER and Gen. HAYNE, of South Carolina, which politely hinted to the daring, but discomfited champion of State Rights, that "when he called out DANIEL WEBSTER *he woke up the wrong passenger!*" A fresh illustration of this unpleasant variety of blunders is furnished by the *Commercial* of Saturday. That paper devotes half-a-column to an angry attack upon Gov. FARWELL, for a presumed dereliction of duty, and entire charge of ground, in "compromising" matters with the Wis. Marine & Fire Insurance Co., being to all appearances, profoundly ignorant of the fact that in all this it has "woke up the wrong passenger." In other words, Governor FARWELL has not altered his views, or changed his action in the matter, but adheres quite tenaciously to his first opinion. On the other hand, the Attorney General, who commenced the proceedings, has, for good and sufficient reasons and upon a stipulation duly made on behalf of the Company, consented to stay proceedings until they can have time to elect whether they will come in under the General Banking Law, or quietly wind up their business. As the professed object of the *quo warranto* was to clear the ground of "illegal banking," so as to leave the field open to the regular practitioners, under the expected General Law, we do not see how any public or private interest is to suffer by this arrangement, nor can we guess why the *Commercial* should find fault with it.

CITY PRINTING.—The Common Council, at their meeting on Saturday, took another turn at the City Printing, upon a resolution of Ald FISCHBACH to reconsider the action of the previous meeting. After considerable skirmishing and some neat parliamentary manoeuvres, the Board, by Ayes 7, Nays 6, *reconsidered* the resolution of last week, adopting the report of the minority of the Printing Committee, and giving all the incidental and Job Printing to the *Free Democrat*. A third resolution, to reconsider the vote designating the *Free Democrat* and *Banner* as the City Papers was, after some debate and sundry divisions, laid on the table, by Yeas 7, Noes 5. The proceedings and votes will be found at length in our Common Council Report. It was evident that several of the Aldermen had voted, at the previous meeting, under misapprehension and desired an opportunity to put themselves right on the question. The matter is still open.

TWO TRAINS DAILY.—It will be seen, by reference to our columns, that the Milwaukee & Mississippi R.R. Company will henceforth run two trains a day each way, between this city and the present terminus of the road on Eagle Prairie. The cars leave here at 7½ A. M. and 2½ P. M. This arrangement has long been desired by the travelling and business public, and will add 50 per ct, if not more, to the business of the road. For several days past the Cars, both for passengers and Freight, have run full, and the Spring business opens promisingly. We think by the time this thoroughfare is completed to the Rock River, it will more than justify the predictions of its most sanguine friends.

EASY LESSONS IN NATURAL HISTORY.—The *Wisconsin* of Saturday mentions the interesting fact that "Cats without tails are to be found in the Isle of Man, adjoining England."

We suppose this to be a provision of nature to keep the relative proportion of cats and tails uniform; to wit, for every cat, a tail; it being a well ascertained fact that cats with *nine* tails are occasionally to be found in England, adjoining the Isle of Man.

Those Railings.

MR. EDITOR:—You, as well as every person who has had occasion to pass up the West side of East Water Street, between Wisconsin and Mason, have probably been driven into the mud by those stair railings which project into the walk, some five feet—two feet more than the law allows. They are a nuisance, and should be removed immediately. A petition, numerously signed, has been handed to Alderman Prentiss, of the First Ward, which he has not yet presented to the Council. I trust that the Council will order the removal of the railings immediately, and likewise the raising of the side-walk, which I believe the occupants of the stores are willing to do, if there is an ordinance passed to that effect.

MR. EDITOR:—I saw a statement in Saturday's *Sentinel*, that the crossings on East Water Street are several inches under the mud. There is one exception—the crossings at the foot of Mason St. are always kept clean for the especial benefit of the ladies. R.

ODD FELLOWSHIP IN THE PACIFIC.—ERASTUS D LORD, whose death at Honolulu, Sandwich Islands, on the 9th of January last, was announced in Saturday's paper, became connected with the I. O. O. F., in this City, several years since, and was a Member of Menomonee Lodge, No. 5.—When he left here, some two years ago, for the distant shores of the Pacific, he took with him the usual travelling card. His health failed, ere he reached his destination, and for the last eighteen months of his life he was an invalid. In hopes of finding a more genial clime and regaining his health, he sought the Sandwich Islands. Here, the progress of his disease soon confined him to his bed, and in the course of a few short months hurried him to his grave. Tho' a stranger in a strange land, he found kind friends and tender and assiduous nurses in the remote isles of the Pacific. The Members of the Excelsior Lodge No. 1, of Honolulu, took charge of their sinking brother, and for weeks and months did all that was in their power to minister to his wants and smooth his dying pillow. And when the spirit took its final flight, they paid to his mortal remains the last sad rites prescribed by the usages of the Order. Mr. LORD, as a Member in good standing of No. 5, was entitled to his benefits, and on Friday last a draft for $150, in his behalf, drawn by Excelsior Lodge No. 1, of Honolulu, upon Menomonee Lodge, No. 5, of Milwaukee, was received in this city. It was sent conformably to instructions from the officers of Menomonee Lodge, and will be paid in due course.

UNIVERSITY OF MILWAUKEE.

At a meeting of the Board of Trustees, on the 26th of March, the following resolutions were unanimously adopted; and ordered to be presented to the city papers for publication:—

Whereas, It has pleased Almighty God to remove by death, ROBERT C. BRADFORD, one of the Corporate Members of the Board—

Resolved, That in this afflictive dispensation of Providence, the Board has lost one of its most faithful Members, and the community has been deprived of one of its most enterprising, and public spirited citizens.

Resolved, That as members of the board we deeply sympathize with the afflicted family of the deceased, and present to them the assurance of our condolence in this sudden and severe bereavement.

Resolved, That a copy of these resolutions, signed by the President and Secretary, be presented to the family of the deceased.

READING OUT GEN. DODGE.—The following comments from the Louisville *Democrat*, upon the recent letter of Gen. BUTLER, repudiating Free Soilers and Free Soilism, will, we think, especially interest the Wisconsin Democracy and their representative and favorite, Gen. DODGE, whom Kentucky Locofocoism eschews as "a notorious *free soiler*."

"We publish in another column the letter of Gen. Butler to F. P. Blair. It is straight forward and to the point. He has disregarded the silly advice of those who deprecated the publication of an autograph letter of his, and placed himself on the platform of the democratic party in this State.

This letter was *most emphatically called for*.—some time ago the free-soilers in the free States simultaneously hoisted the name of Gen. Butler for President, and in Missouri they placed on a ticket with him *a notorious free-soiler, Dodge, of Wisconsin*. The fact was announced in nearly every whig sheet, and the democratic party were charged with a meditated coalition.

The facts wore a significant appearance, and there was no adequate reply. We neither disguised the facts nor the inference. It is the business of a candidate for the presidency to set himself right. His friends can't do it. *It's his business to repel such an imputation from himself and his party.*"

HANDSOME ESTABLISHMENT.—Mr. VAN COTT has so far completed his arrangements that his new Jewelry Store, corner of Michigan and East Water-sts., opposite the Bank, is now open for the inspection of the public. He has already a handsome assortment of Jewelry and Silver ware in his show-cases and on his shelves, and intends to add largely to the stock. He has one clock on his premises which presents an animated and curious picture of every-day life; showing Rail Road cars in rapid motion, vessels under full sail, loaded teams crossing a bridge, mills at work, pedestrians trudging along a public road &c., &c. It is well worth a visit from the curious in mechanical contrivances, as indeed are many other things in VAN COTT'S Store.

THE FIRST CARGO OF WHEAT.—The Toledo *Blade* says, that amid the many bushels of wheat now annually shipped from that port, it may prove interesting to learn something about the first cargo. This—as will appear from the old books of the custom house at Maumee—was shipped in 1827, by John Hollister, on board the schooner Eagle, under command of the veteran commander of the steamer Superior, David Wilkinson. The cargo amounted to 300 bushels. It was taken to Buffalo, but there being no offer for it, was reshipped to Dunkirk, and sold by the Captain for 41c per bushel.

EMIGRANT'S NEW GUIDE TO OREGON.—We are indebted to Gen. LANE, Delegate from Oregon, for a copy of the "Emigrants new Guide to Oregon," prepared by Capt. R. M. WALKER, Civil Engineer, of Milwaukee, Oregon Territory, and recently published at Washington. It gives a minute and reliable description of the country over which the trail passes, and must be a useful and valuable publication for those intending to take the overland route to Oregon.

GOOD CHANCE FOR A BARGAIN.—Messrs. Beecher & Bryant offer for sale their extensive Nursery on the Wauwatosa Road, two and a half miles from the city. It is conveniently located, in excellent order and very well stocked. The opportunity is a desirable one for any person wishing to engage in the business. See advertisement.

"BLEAK HOUSE" BY CHARLES DICKENS.—The Harpers have received and published the first number of this new story by DICKENS, the most genial writer of the age. We give to-day, the opening chapter, which bears the works of a master hand, and shall continue the publication regularly, as the numbers are received from England.

MINERS' WEEKLY TRANSCRIPT.—We have rec'd the first number of this new paper, published at Shullsburgh, Lafayette County, by D. C. TRIPPE, Esq. It is neutral in politics, and especially devoted to the interests of Western Wisconsin. We hope that the people of Lafayette Co. will give the *Transcript* a liberal support.

☞ The alarm of fire last night proceeded from the burning of a frame building on Jefferson Street, between Detroit and Huron Sts., owned by Mr. Butler.

NO EASTERN MAILS.—The heavy sea and high wind of the last three days have laid an embargo on the Steamboats; none having ventured out of Chicago since Thursday. We have had no Eastern Mail since Thursday night.

Resolutions.

By the same, instructing Aldermen of First Ward to inquire and report to this Board upon what terms the Market Square can be sufficiently enlarged to accomodate the teams loaded with Hay, Wood &c. Adopted.

By Ald. Fischback, three resolutions to reconsider vote adopting report of Minority Committee on Printing, appointing S. M. Booth and Schoeffler & Wendt City Printers, and giving all incidental printing to S. M. Booth.

Mr. Neustadtl moved to lay these resolutions on the table. Lost, 6 to 3.

Mr. West raised a question of order, that it was not competent for the Board to reconsider an election of City officers, made by ballot.

The Mayor ruled that as the mode of selecting City Papers fixed made by resolution, it was competent for the Board to reconsider that resolution.

Ald. Foote moved to postpone these resolutions indefinitely, and the vote stood, as follows:

Ayes.—Foote, Neustadtl, Hickey, West, Johnston, Martin,—6.
Noes.—Prentiss, Peck, Reed, Brown, Fischback, Rosebeck.—6.

There being a *tie*, the Chair voted in the *negative*: so the motion to postpone was *rejected*.

Ald. West, moved a call of the house. The Clerk called the roll. All present, except Ald. Huebschmann, Phelps, Dousman, who are absent from the City.

Call suspended, and Ald. Foote moved to postpone consideration of resolutions for *six* months.

Vote as before, Yeas 6, Nays 6. The Mayor voted in the *negative*; so the motion to postpone for 6 months was *lost*.

Mr. Neustadtl moved to postpone for *four* weeks.

Chair ruled the motion out of order.

Ald. West again raised the point of order, as to whether the Board could reconsider the vote of last meeting, electing City Printers.

The Chair repeated his former decision.

Ald. West moved to lay the resolutions on the table.

Ald. Peck said that the Board had already twice refused to lay this subject on the table.

The vote was again taken and the Board *refused* to lay on the table, Yeas 6, Nays 6, the Chair voting in the negative.

The question recurring on the adoption of Ald. Fischback's resolutions,

Ald. Brown expressed the hope that the Board would reconsider their action of last meeting. He could not believe that members had voted understandingly on this question. The Board, by adopting the report of the majority of the Committee, would certainly save to the City $500 for the year. He thought this an object worth trying for.

Ald. Foote held that the City Printer was an officer, like the Comptroller, to be chosen in the same way, and his duties defined and compensation fixed by ordinance.

Ald. Prentiss held that the City Printers were not Officers of the Board, but mere contractors to do certain work for the City, and he was in favor of giving all work, as the Charter required, to the lowest bidder.

Ald. West did not know how Members could tell that so much was to be saved to the city, by adopting the majority report, till the ordinance, fixing the prices for printing, was adopted.

Ald. Fischback inserted that it was the duty of this Board to do the business of the City on the best terms and accept for all work, the lowest bid.

Ald. West moved to *adjourn*. Lost,

Ayes—Ald. Neustadtl, Hickey, West, Johnston, Roesbeck—5.
Noes—Ald. Prentiss, Foote, Peck, Reed, Brown, Fischback—6.

Ald. West moved to send the Marshal after absent Members. (All out of town.) The motion was rejected.

Ayes—Ald. Neustadtl, West, Johnston, Martin, Roesbeck—5.
Noes—Ald. Prentiss, Foote, Peck, Hickey, Reed, Brown, Fischback—7.

Ald. West again moved to lay the resolutions on the table.

Ald. Peck said they had already refused three times to lay this question on the table.

Ald. West said they could vote upon it a hundred times more.

The motion was again put and lost.

The first resolution of Ald. Fischback was then put and carried.

The second resolution coming up, Ald. Neustadtl moved to lay on table, and the motion prevailed, Ayes 7, Nays 5—as follows:

Ayes.—Foote, Neustadtl, Hickey, West, Johnson, Martin, Roesbeck.
Noes.—Prentiss, Peck, Reed, Brown, Fischback.

The third resolution, to reconsider vote giving all the City printing to S. M. Booth, coming up Mr. West moved to lay on table—lost.

Ayes.—Foote, Neustadtl, West, Johnson, Martin, Roesbeck—6.
Noes—Ald. Prentiss, Peck, Hickey, Reed, Brown, Fischback—6.

The Chair voting in the negative.

The question was then taken on the resolution and it was *carried*, as follows:

Ayes—Ald. Prentiss, Peck, Hickey, Reed, Brown, Fischback—6.
Noes—Ald. Foote, Neustadtl, West, Johnston, Martin, Roesbeck—6.

The Chair voting in the *affirmative*. resolution was *adopted*.

On motion of Ald. West, the Board confirmed the election of Chief Engineer, Assistants and Fire Wardens, by the Fire Department, for the ensuing year.

The Mayor laid before the Board a communication from Dr. James Johnson, asking action on his bill of $100 for service as Emmigration agent &c., last year.

On motion of Ald. Foote, the matter was referred to Finance Committee.

Ald. Martin offered a resolution relative to the outstanding Special Tax Orders in the 5th Ward, which was referred, on his motion, to the Comptroller.

Ald. Johnston offered a resolution that Michael McDermot be appointed Assistant City Surveyor, for the 4th and 5th Wards.

The Mayor ruled that it was out of order, there being no provision in the Charter, or Ordinances, for such an officer.

Ald. Roesbeck offered a resolution, declaring that work ought to be resumed in grading streets, filling lots, &c., in the 5th ward, so as to give employment to the poor, &c.

The Mayor decided that it was a question for the Aldermen of the 5th ward, and not for the whole Board.

On motion of Ald. Neustadtl, Board then adj'd till Saturday next, at 2 P. M.

Special Message from the Governor.

The following Special Message was communicated to the Assembly on the 25th inst., and after being read, was referred to a Select Committee of three:

EXECUTIVE DEPARTMENT,
Madison, March 21 1852.

To the Senate and Assembly.

I have considered it my duty, in view of the important public interests involved, and under the peculiar circumstances of the case to report to the Legislature my official action in relation to certain proceedings now pending in the Supreme Court of this State against illegal banking.

On or about the 19th of January last, in a personal interview with the Hon. Experience Estabrook, the Attorney General, I suggested that the public interest as well as duty, seemed to require, that proceedings should be taken against illegal banking in this state, without delay.

Mr. Estabrook expressed an unwillness to take any responsibility or direction in the matter himself, but, at the same time, consented to the use of his name as Attorney General, in case I should employ other counsel, to commence and conduct such proceedings. I then named the Hon J. R. Doolittle of Racine, as such counsel, to which he cordially assented.

Accordingly, on the same day, I addressed a letter to Mr. Doolittle employing him on behalf of the state, to institute proceedings at law against illegal banking. Soon after, Mr. Doolittle came to Madison, in response to such employment, and in consultation with the Attorney General in the Executive office' said Attorney General again declined taking any responsibility or direction in the proceedings, but consented that Mr. Doolittle should assume the entire responsibility and direction thereof, and make out all the necessary papers, and he would sign the same as Attorney General.

In pursuance of this understanding, Mr. Doolittle drew and made out Informations against the "Wisconsin Marine and Fire Insurance Company," William T. Richmond, Levi Blossom, Daniel H. Chandler, and Condy R. Alton, with a certificate of belief that the facts could be established by proof, which Mr. Estabrook signed as Attorney General, and Mr. Doolittle as counsel, and they were then filed in the office of the clerk of the Supreme Court, at Madison, with the leave granted by his Honor Chief Justice Whitton, endorsed upon the Information against said Insurance company.

Whereupon writs of summons were issued against said defendants, at the next June term of of the Supreme Court. All of which, said writs, have been returned duly served.

On the 21st inst., James S. Brown, Esq., called upon me at the Executive office, and stated in effect, that he was the only attorney employed by the Insurance Company to defend said proceeding, and that Mr. Mitchell and himself contemplated going to Europe together in the month of June next, and for that reason, he wished me to consent to the continuance of said cause against the company, until the next December term of said court. He further stated that, he had seen the Attorney General upon the subject, and that he had stated, that he had taken no responsibility in the proceeding, but that if I would consent, he would now take the responsibility to continue the cause as desired. I declined giving my consent to such a continuance, stating to Mr. Brown that I did not deem the reason a sufficient one for me to consent to continue a cause of such great interest to the state.

On the morning of the 22d inst., Mr. Estabrook, the Attorney General, likewise asked my consent to such continuance, which I again positively refused.

In the evening of the same day Mr. Estabrook again called upon me and asked me to consent to such continuance, which I again refused, and stated to Mr. Estabrook that the case was one of very great importance to the state, and was now properly before the Supreme Court, and applications for a continuance should be made to the court, and that I did not think it right or proper for me to interfere with it. Upon his intimation, that he would stipulate for its continuance, I stated to him that he had declined taking any responsibility, and had fully committed the management and control of the case to Mr. Doolittle, and that I did not think he had any right to stipulate for its continuance without the consent of Mr. Doodlittle or leave of the court, and I accordingly advised and directed Mr. Estabrook not to stipulate for such continuance.

On the 23d inst., the letter and stipulation, of which the following are copies, were filed in the office of the Supreme court in said cause.

Madison, March 22, 1852,

Hon. Experience Estabrook, Attorney General:

SIR—Having understood that the object of the late proceedings against the Wisconsin Marine and Fire Insurance Company, was not to gratify any personal feelings on your part against the Institution or its officers; but for the purpose of compelling the company either to organize under such banking law as the people of this state may adopt, or entirely to discontinue all banking business; I take the liberty to submit to you a proposition which will secure to the state and yourself all proper advantages that could be attained by a successful prosecution of the suit. It has always been the intention of the officers of that Institution, either entirely to discontinue its business, as soon as a general banking law should be adopted, or to organize under such law. This intention was openly announced by me at the last session of the Legislature, and was acted upon by the Senate and Assembly, by their refusing to take any measures on the subject, although measures were recommended by the Governor—thus, as I had supposed, pledging on the one hand the faith of the company that they would pursue the course declared by their officers, and conform to the settled policy of the state, and pledging the faith of the state on the other hand, that until such policy should be settled, the company would not be harrassed with useless prosecution. Gov. Dewey so understood it, and when your predecessor in office commenced proceedings against the company, disclaimed (as I am informed) to that officer all responsibility for his course.

You may imagine then, my surprise at receiving your summons in the case now pending, when I knew that the tacit understanding before referred to was a matter of public notoriety; and as I supposed, well known to Gov. Farwell and many of the other State officers. On my own part I am still willing to carry out the understanding, and for the purpose of having it definite will pledge the faith of the company, and their officers, in case proceedings are not pressed against them, that as soon as the banking law is adopted by the people, they will immediately elect, either to organize under the law, or discontinue on the part of the Institution, the business complained of, and that within six months thereafter, (which is the shortest possible time) the institution shall absolutely and forever cease the transaction of banking business complained of.

In justice to myself, I will say that this proposition does not arise from a conviction that the company have been exercising franchises, not secured to them by the charter, or from a despair of a successful resistance to the proceedings commenced. But a matter of so much importance, involving the construction of laws of the United States, and rights secured by the Constitution of the country, could not be finally determined but by the decision of the highest tribunal in the land, the Supreme Court of the United States, and this would involve a litigation for years; vexatious to the company and injurious and expensive to the State. I would be unwilling that the company, even if it could, should avail themselves of franchises at variance with the general interests and settled policy of the State, and would prefer, without any ulterior motive, either to conform to the general law of the State, or entirely to discontinue business.

In conclusion, you will pardon me for alluding to the past course of the company, and it's officers and considering the amount of complaint of which, during a period of 13 years the company has been doing business, they have been the objects, you will not ascribe such allusion altogether to vanity. We have always endeavored to confine ourselves to our legitimate business, and while advancing our own interests, not to forget the interests of the public. Even in self-defence, we have never interfered with politics, or used the moneyed power of the Institution to gain improper influence. We have never encouraged undue speculations or produced expansions, but have yielded every possible aid in our power to the business interests of the country in all its parts. We believe that in conducing to the wonderful progress and prosperity of our infant State in time past, our influence has not been unfelt, and when the time shall arrive for winding up the affairs of our Institution, it will be with the satisfactory feeling that while it has promoted our own interests, it has at the same time done some service to the State.

Respectfully;
Your ob't serv't:
ALEX. MITCHELL.
Secretary.

SUPREME COURT,

I, Samuel W. Beall, clerk of the Supreme Court of said State, do hereby certify that the within and foregoing is a true copy of the stipulation filed in the above entitled cause, on the 23d day of March A. D. 1852, as appears on record.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, at [L. S.] Madison, this 23d day of March, A. D. 1852.

SAMUEL W. BEALL, Clerk.
By L. F. KELLOGG, Dep.

I have been informed by the clerk of said court that the Attorney General has left orders with him not to permit the filing of any further papers in said cause by any one except himself.

These proceedings against illegal banking, I caused to be instituted by what I believed to be my most solemn duty under the constitution, in perfect good faith, without any other motive or wish than to faithfully execute the laws, and subserve the general interest of the state.

I cannot believe it my duty in any case, to compromise violations of law, or postpone upon any terms, its execution.

I therefore disclaim most fully the compromise and continuance of this case, so sought to be made, by the Attorney General and shall notwithstanding insist on its determinaton by due course of law, unless rendered necessary by a removal of the causes of complaint.

And as the present Executive of the State, I also disclaim, and disavow, all pretended arrangements, understandings or agreements, on behalf of this illegal banking, or any other violations of the law.

ACCIDENT AT HELLGATE.

New York, March 27.

With regard to the explosion at Hellgate yesterday, we learn that two lives only were lost. The charge, it appears, instead of remaining at the bottom of the water, on the rocks, rose to the surface, when the explosion took place, which blew the wooden charge boat to atoms and instantly killed two men; the 3d officer and the pilot in charge of the boat were mortally wounded—Mr. Maillefort, Wm. Smith, an assistant, in one of Francis' Life-boats, containing the battery, were both thrown into the air, to a considerable height and fell into the water, but were finally, with great difficulty saved. Mr. Maillefort, we trust, is not seriously injured. His assistant is so far recovered as to walk about. Mr. Maillefort's wife and children were to have accompanied him, but arrived at the wharf a few moments too late.

At half-past 12 last night, a fire broke out in the South-Western corner of Broadway and Dey Streets. Loss by which is estimated at *four hundred thousand dollars.* Principal sufferers, being Merritt, Bliss & Co., $200,000; insured for $140,000; White & Bramhall $50,000, fully insured; Mitt, Ween & Co., $50,000. It is not known how the fire originated—supposed to have been caused by the furnace in the basement. Men were at work in the store till after 10 o'clock, and when they left, there were no indications of fire.

The buildings destroyed were erected the past season and were very valuable, and stored full of the richest goods sold in this market.

The steamboat *Nimrod* is advertised to leave here at 6 P. M. for Albany direct, or as far as the ice will permit.

Steamship *Brother Jonathan,* which was to sail yesterday for Chagres, has been withdrawn from line. We understand she has been bought by C. Vanderbilt, who intends her as an addition to his line of steamers to San Juan and San Francisco.

Philadelphia, March 27.

The Jury in the case of the two brothers Stupenski, charged with murdering the Jew pedlar boy, rendered a verdict of *Guilty,* this afternoon.

THE RICHEST LEAD YET!—The Mineral Point *Tribune* of the 25th instant, gives the following account of a recent and very rich discovery of mineral, within a few miles of that town, by Mr. Rob't Dyer:—

Mr. D. had been for some time engaged in a lead that had paid remarkably well, but finding at a depth of about 50 feet, the water somewhat troublesome, he obtained an Artesian Borer for the purpose of sinking down, in hopes of finding a crevice through which the water would pass off. He has sunk the hole with the Borer, about 50 feet, and in so doing, has cut through over *thirteen feet of solid Mineral!!* This, we believe, is the thickest vein of Mineral ever struck in this vicinity, and if it proves as extensive as present appearances would indicate, will be the richest lead on record.

Mr. Dyer has recently been laboring under a severe attack of "California fever." *He is decidedly convalescent.*

ANOTHER BIG LEAD, DISCOVERED IN SHULLSBURG.—One day last week a company of men consisting of J. B. Watts, Z. Gates, Dr. G. W. Lee, and D. C. Trippe, broke into a large Cave, containing a great quantity of mineral, which promises to be one of the largest leads ever discovered in this section of country.

It is on Mr. Wm. Hempstead's land, south of the main part of the village.

They are men of the right stamp, and we think this good luck, just served them right.—*Miners' Transcript.*

THE ASTOR-PLACE RIOTS.—Mr. Stevens has not yet published his promised statement upon this subject, and the Police Gazette intimates that strenuous efforts have been made to suppress any such documents. The Editor of the Gazette professes to have seen "fifteen or twenty closely-written sheets, comprising that part which treated of the Forrest Riot," but word was subsequently sent that some person had seized and burned the manuscript. Whether it will be re-written and published, is now altogether uncertain.—*N. Y. Tribune 19th.*

TAKING ALL THE CHANCES.—Those desperately hungry fellows around the City Hall, in order to miss no shadow of a chance to get office for party friends, last night proposed the following resolution:

Resolved, That Anthony T. Gallagher be and he is hereby appointed a Commissioner of Deeds, whenever a vacancy shall occur.

That is what may be called pretty sharp practice, and we presume that it will become the rule until all offices are filled (prospectively) by "our folks."—*N. Y. Tribune, 19th inst.*

MISCELLANEOUS.

EMPIRE INSURANCE COMPANY,

Union Springs, N. Y.

CAPITAL....................$100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK MUTUAL BENEFIT ASSOCIATION,

Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalelled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

Conditions of Membership.

A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water,* and not for a hotel at a fashionable watering place. Yet, to the lovers of nature and a quiet summer residence, the house has many attractions besides its Water-cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

The ground floor of the light-house to be paved with brick or stone. A sufficient number of circular dressed stone stairs, not to exceed eight inches rise, to lead from the ground floor to within seven feet of the soapstone deck, one end of each step to be worked in the wall, the other to go up plumb, forming a newal guarded by a good iron hand railing, substantially secured to the wall with iron eye bolts. From the platform at the top of the stairs to the entrance of the lantern to be an iron ladder, with steps the usual distance apart, to equal two inches square.

On the top of the tower to be an iron lantern of octagon form, the posts to be two inches square, to run down into the brick work four feet, and secured with anchors; the height and diameter of the lantern to be sufficient to admit in each octagon an iron sash to contain 14 lights of 11 by 28 inch, to be glazed with best French plate glass, except the lower tier which is to be filled in with copper, the rabbits of the sashes to be three quarters of an inch deep. In one of the octagons of the lantern to be an iron framed door covered with copper, four feet by two feet in the clear, to shut tight into rabbits, with strong iron hinges and turnbuttons; the top of the lantern to be a dome formed by sixteen iron rafters concentrating in an iron hoop five inches wide and nine inches diameter, covered with copper thirty-two ounces to the square foot, which is to come down and rivet into the piece that forms the top of the sash, which is to be three inches wide.

On the dome to be a traversing ventilator, thirty inches long and fifteen inches diameter, on which is to be secured a vane three feet long and twenty inches wide; the ventilator and vane to be framed with iron and covered with copper; around the lantern to be an iron railing, the posts of which to be one and a quarter inch square, connected by three iron railings one inch square; the railing posts to run up parallel with the eaves of the lantern, and the upper railing to be four feet from the deck.

The wood work of the tower, the lantern, ventilator and vane, to be painted twice over; all the iron and copper work black; the putty on the sashes and wood work white; inside of the lantern white.

The keeper's house to be built of hard bricks, thirty-six by twenty feet, one story and a half; the lower story to be eight feet in the clear; the walls to be 12 inches thick; all the brick work to be laid in good lime mortar. The roof to be rectangular; the house to be divided into two rooms, with a chimney at each end, and an entry six feet wide; a door into each room, and an out door; a fire-place in each room, and closets with shelves and doors back of the chimneys. The upper part to be finished off into two chambers. Stairs to lead from the entry into the chambers, which are to be partitioned off, one door in each; lathed and plastered, and double floors well nailed. The inside walls of the rooms, entry and ceilings to be furrowed, lathed and plastered. Three windows in one room and two in the other, to contain twenty-four lights each, seven by nine glass, and one window of the same size in each chamber.

G. GRAESSLE'S
PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire proof Tile invented by Mr Graessle, having found them perfectly secure during great storms, rains, wind and intense cold. I hereby take the occasion to recommend said roof covering to every house builder inviting them to satisfy themselves by ocular inspection of the excellent quality of the same

ENNO MEYER,
Druggist, 374 W Water st, 2nd ward

Milwaukee, Feb 3, 1852

The above I found true in every respect, as to the roof of my house covered with the same tile invented by Mr Graessle

AUGUST KRUG,
Brewer, Chestnut st., 2nd ward

The undersigned having carefully examined the pressed roofing Tiles invented by Mr Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain water, but by their firm and precise joining of one into the other, they are to the single Tile as well as to the whole covering an absolutely immovable position and an intimate connection. Besides this, Mr Graessle's method of burning the Tiles deprives them of the injurious tendency to absorb water, making them in this way durable and joining to the above another advantage, that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the community the above roof being a handsome, cheap and valuable material

FOR COOKING, PARLOR & OFFICE USE, GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds, SAD IRONS, STRAW CUTTERS, CORN CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community we do it with the fullest assurance that we can supply better articles than can be purchased at any other place, being entirely new pattern, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular way

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville)

Possesses great advantages over every other stove for plain use, and direct application of heat being so arranged that one or both ovens can be used at pleasure. It will cool in half the time of any other stove now in use and with half the fuel, consuming over four cords of wood in one year

The TRIUMPH single oven takes in long wood is an excellent stove—one that has been well tested, and given great satisfaction

The PREMIUM is different in its construction from any other made in the arrangement of the fire back—no known equal to be a great improvement

The JUNO PARLOR is adapted to either wood or coal, being designed on the newest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors

The RADIATOR is the best coal stove ever got up as a regulator of heat

Persons purchasing their stoves of us, in the event of any of the plates getting broke can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware

Those who are in want of any articles in our line will find it to their advantage to give us a call before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. Other references given where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to

We would respectfully call the attention of our many friends and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and accordingly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us

IMPORTANT TO CONTRACTORS.
PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation superstructure and bridging of the Glasgow and Huntsville Plank Road

For the information of non resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville in Randolph Co, Mo., and is about twenty eight miles in length. The country over which it passes abounds with suitable timber, and is in other respects favorable to the cheap construction of plank roads. There are however, a few streams which will require bridges of considerable extent

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments as the means of the company are ample

Those who wish to examine the route will receive all necessary information from Maj R Walker, the Engineer

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposals may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April

For the encouragement of contracting companies, it is proper to state that there are two other plank roads in contemplation in the vicinity, both of which will no doubt be constructed

Communications are required in duplicate, one copy to be addressed to the undersigned at Huntsville, the other to F A Savage Esq, Secretary of the Company at Glasgow

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate, whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF

In a few seconds

WILL STOP THE MOST DISTRESSING PAINS

Its effects are like electricity, it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell membrane, and establishes the secretion of every gland in the system subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ

NEURALGIA.

PAIN STOPPED INSTANTLY

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains

DANGEROUS PRACTICE

The use of Morphine, Strychnine, Acontine, Belledonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation*

If this practice is continued for any length of time, the patient will not only waste away but the brain will become paralyzed and the intellect destroyed

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system

ALL BOWEL COMPLAINTS,

Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.

PAINS RELIEVED IN FIVE MINUTES

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system

PAINS OF ALL KINDS

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause

BEAUTY

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece

RADWAY'S MEDICATED SOAP

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases

TO THE COMPLEXION IT IMPARTS BEAUTY

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,—
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp and forces it to grow—
Like guano to a barren soil, it makes it rich and productive—
To dress the hair, make it smooth and glossy,—
Strong and beautiful &c

Radway's Circassian Balm is the "ne plus ultra"

Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS:

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration

This Medicine acts as a simple, but powerful Tonic. It checks this tendency to exhaustion,

RENOVATES THE BLOOD,

allays NERVOUS EXCITEMENT, and reanimates the

Whole Body with New Life.

Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic

Beware of Counterfeits.

Dr Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper

[From the Boston Bee]

The Editor said, Dec 31 "Dr Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety under any circumstances. We are speaking from experience, and to the afflicted we advise their use"

SCOTT'S WEEKLY

As such is the case, we would advise all mothers to obtain a bottle and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems"

The Daily News, July 21, says —"A Medicine"—We speak knowingly of Dr Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol and to all invalids we should recommend it as worthy of their confidence"

The Dispatch says —"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed
